CORONAVIRUS – 19th UPDATE

Resumption of Sailing/Windsurfing Programme

With the Welsh Government's relaxation of the rules governing the numbers allowed to participate in outdoor sports that come into effect on the 17th May, we are making changes to Sunday sailing starting from the 23rd May.

We will no longer be running two separate sessions, and will have a single session 11:00 to 16:00 for racing, casual sailing and windsurfing / SUPs / kayaks.

For racing, the current Spring Series will continue with two races back to back and the first race starting at 11:00. The current requirement to complete the two races in two hours is extended to two and a half hours. A new Spring Late Series will be run over the remaining Sundays of the Spring Series and will have one race per Sunday starting at 14:00. It is expected that crews will want to come ashore between series.

Casual sailors and those with other craft are requested to keep the launch area clear when those racing are launching or coming ashore in order to maintain appropriate social distancing.

The online booking system has been updated to reflect this change. You must book at least 24 hours before the event, so by Saturday morning for Sunday sailing and Tuesday evening for Wednesday sailing. We are limited to 50 including the duty team, and will be applying a "first come" process if we're overbooked, so book early.

As in last year's sailing, there are still no clubhouse facilities available. So you must arrive changed or change in the car park and bring your own refreshments.

Best regards and please stay safe.

John
